Authorised Financial Services and Products

It is important for clients to understand that Northstar restricts the services it offers to the discretionary management of clients' investment portfolios in cash, money market type investments, shares listed on the Johannesburg Securities Exchange and collective investment vehicles.

Northstar Asset Management does not provide financial advice. Our assumption is that investors approach us to provide these services once they have decided, or been advised by their financial advisors, to seek managed exposure to these asset classes and we do not second guess this decision.

For this reason we do not undertake needs analyses nor offer financial advice as to whether, given your circumstances, it is appropriate for you to be seeking equity exposure.

We also do not offer financial advice in other areas such as: estate planning, tax planning, lease structuring, financial management, or the like, and encourage clients to seek such advice from their financial advisors.

We urge our clients, and potential clients, to fulfil their responsibility to seek advice from their Financial Advisors as to the appropriateness of Northstar's services to meet their specific financial needs.

No product suppliers have imposed any conditions or restrictions with regard to the type of financial products or services that may be provided or rendered by Northstar.

Conflicts of Interest

Conflicts of interest may manifest themselves in any business; Northstar's policy is to pre-emptively identify and avoid or manage potential conflicts of interest that may arise, in such a manner as to ensure that our clients are never compromised.
