

NORTHSTAR

ASSET MANAGEMENT

CEASELESSLY EXPLORING, CONSTANTLY DISCOVERING

AN EVENING WITH PREMIER

HELEN ZILLE & NORTHSTAR ASSET MANAGEMENT

22 MARCH 2017

Northstar were privileged to host a talk by Premier Helen Zille at the Portside building in Cape Town. Over 170 clients, brokers and friends of Northstar attended the event and the evening started with canapes and drinks followed by presentations by Adrian Clayton, Marco Barbieri and Rory Spangenberg. Finally, the Premier then shared from her book "Not without Fight".

Feedback from the event has been extremely positive and some points from the Premier's talk that resonated with our staff were:

- It made me more resolute to achieve our goals. Northstar is driven by facts and by being small but smart. The DA was small but smarter than their rivals too and look where they are today.
- It was a privilege to hear first-hand how the Premier, (a seemingly "ordinary" principled person), has gone about making this world a better place. This is certainly cause for a moment of reflection to think about what we could/should be doing better.
- For me it was what the Premier said about the importance of choosing the right partner, which I think resonates in one's personal life and in business endeavours.
- Nobody has the right to not be offended in an open society. I really like that concept.
- I enjoyed the statement that no one can reach a true reality. However, it is imperative to get as close as possible to be successful, which is applicable in every aspect of life, be it in finance or politics. It definitely motivated me to continue my in-depth research and to question things.
- I appreciated the hope expressed in setting out to truncate the millennia that lie between being owned and beholden to your group on the one hand and being an autonomous individual making free choices and living a life that has intrinsic meaning and purpose on the other.

We extend our gratitude to the Premier for the talk and also to our clients for their ongoing support of Northstar.
